- » Californians are getting what we pay for when it comes to public schools, and it's simply not good enough for our students, our schools, our state or our future. Learn more about why we need [#fullandfairfunding](https://www.fullandfairfunding.org) at www.fullandfairfunding.org.
- » Despite boasting the fifth-largest economy in the world and the highest gross domestic product of any state, California sits near the bottom nationally in nearly every significant measure of school funding and school staffing. Help increase funding at www.fullandfairfunding.org!
- » In 1970, California's school system was the envy of the nation, ranking top five in per-pupil funding and considered among the best in student achievement. Let's return to our former glory by way of the [#fullandfairfunding](https://www.fullandfairfunding.org) of our state's public schools.
- » If California supported schools simply at the national average, funding would increase by \$1,961 per student. For a classroom of 25 children, that's an additional \$49,000, for a school of 500 students, it's nearly a million extra dollars annually! [#fullandfairfunding](https://www.fullandfairfunding.org).
- » [#fullandfairfunding](https://www.fullandfairfunding.org) would make a world of difference for our schools and help turn the promise of a high-quality education for every student into a reality. It's high time we restore the luster of a public school system that was once the state's crown jewel.
- » These numbers aren't nearly good enough for California: 45th in student-teacher ratios, 48th in student-counselor ratio, 48th in overall student-staff ratio.
